

Are you struggling in your current accommodation, and need support to either keep your home or find more suitable accommodation?

We work with individuals aged 18+, couples and families who are either at risk of homelessness, or worried that they could be at risk if they do not receive support.

The areas we cover are Kings Lynn and West Norfolk.

If you are struggling in your tenancy or are a professional working with a household who would benefit from tenancy support, please get in contact below.
